The Municipality will notify one of the Company's representatives of fires which may affect the Gas Distribution System and /or the operations as quickly as reasonably possible, or, in the event that they cannot reach a Company representative, the Municipality will advise the Company's standby personnel of such fires. The Company shall ensure that its representatives reasonably cooperate with the Municipality in preventing, controlling and investigating fires involving or affecting the Gas Distribution System.

10) RIGHT OF FIRST REFUSAL TO PURCHASE

- a) If during the Term of this Agreement, the Company receives a *bona fide* offer to operate, take control of the entire Gas Distribution System or purchase the Gas Distribution System within the Municipal Area, which the Company is willing to accept, then the Company shall promptly give written notice to the Municipality of the terms and conditions of such offer and the Municipality shall during the next one hundred and twenty (120) days, have the right of first refusal to operate, take control of or purchase that part of the Gas Distribution System, as the case may be, for the same price and upon the terms and conditions contained in the said offer. Notwithstanding the foregoing, in the event that the Municipality fails or refuses to exercise its right of first refusal, the Municipality shall retain the right to withhold its consent to an assignment of this Agreement in accordance with paragraph 17 below. For the purposes of this paragraph 10, "operate, take control" shall not be construed as including the subcontracting by the Company of only some portions of its operations where the Company continues to be responsible for the performance of this entire Agreement;
- b) If the Municipality does not exercise its right of first refusal and the said *bona fide* offer that the Company is willing to accept does not proceed to closure, the Municipality retains its right of first refusal on any other offer.
- c) This right of first refusal only applies where the offer pertains to the entire Gas Distribution System and the right of first refusal does not apply to offers that include any other distribution systems or distribution facilities of the Company located outside of the Municipal Area. If such offer includes other distribution systems of the Company, the aforesaid right of first refusal shall be of no force and effect and shall not apply.

- d) Where the Municipality exercises its rights to purchase the Gas Distribution System from the Company and thereby acquires the Gas Distribution System, the Municipality agrees that should it no longer wish to own the Gas Distribution System within five (5) years after it acquires the said system and the Municipality receives any *bona fide* offer from an arms length third party to purchase the Gas Distribution System, which it is willing to accept, then it shall promptly give notice to the Company of the terms and conditions of such offer. The Company shall during the next one hundred and twenty (120) days have the first right of refusal to purchase the Gas Distribution System for the same price and upon the same terms and conditions as contained in the said offer, providing the offer is equal to or greater than the terms of the original purchase by the Municipality from the Company (taking into account the depreciation of the Gas Distribution System at the time of the offer).
- e) The Municipality's right of first refusal shall not apply where the Company has agreed to transfer the entire Gas Distribution System to a third party utility company in exchange for certain other assets provided all of the following conditions are met:
- (i) the third party utility can demonstrate to the satisfaction of the Municipality that it meets the necessary technical and financial requirements to own and operate the Gas Distribution System;
 - (ii) the only consideration that shall be exchanged between the Company and the third party utility company is the transfer and exchange of assets and monetary consideration limited to a maximum of 49% of the net book value of the Gas Distribution System;
 - (iii) there is no adverse impact to the Municipality resulting from the transfer and exchange above referenced as determined by the Board;
 - (iv) the Company and the third party utility company obtain all the requisite regulatory requirements prior to completing the exchange; and
 - (v) full compensation is paid to the Municipality for all costs including administrative and legal costs incurred by the Municipality in ensuring all of the conditions (i) through (iv) above are satisfied.

11) **CONSTRUCTION/MAINTENANCE OF GAS DISTRIBUTION SYSTEM**

a) **Municipal Approval**

Before undertaking any Work, or in any case in which the Municipality specifically requests the same, the Company will submit to and obtain the approval from the Municipality, or its authorized officers, of the plans, and the specifications when available for the proposed Work and its location. Approval by the Municipality granted in accordance with this paragraph shall be limited to an approval of the location and alignment of the Work only, and shall not signify approval of the structural design or the ability of the work to perform the function for which it was intended.

Prior to commencing any Work, the Company shall obtain such applicable permits as are required by the Municipality.

The Company shall obtain prior written approval from the Municipality of any traffic lane or sidewalk closures required to be made at least forty-eight (48) hours prior to the commencement of the proposed Work.

b) **Restoration of Municipal Property**

The Company agrees that when it or any agent employed by it undertakes any Work on any Municipal Property the Company shall complete the said Work promptly and in a good and workmanlike manner, and, where applicable, in accordance with the approved plans and specifications. Further, the Company shall forthwith restore the Municipal Property to the same state and condition, as nearly as reasonably possible, in which it existed prior to the commencement of such Work, subject to reasonable wear and tear.

The Company shall, where reasonably practicable, locate its pipelines and related equipment in lanes and alleys rather than in the streets and main thoroughfares.

The Company further covenants that it will not unduly interfere with the works of others or the works of the Municipality. Where reasonable and in the best interests of both the Municipality and the Consumer, the Company will cooperate with the Municipality and coordinate the installation of the Gas Distribution System along the designated rights-of-way pursuant to the direction of the Municipality. During the performance of the Work, the Company shall use commercially reasonable efforts to not interfere with existing Municipal Property and to cause as little damage as possible to the property of others (including the Municipality Property). If the Company causes damage to any existing Municipal Property during the performance of any Work, it shall cause such damage to be repaired at its own cost.

Upon default by the Company or its agent to repair damage caused to Municipal Property, the Municipality may provide written notice to the Company to remedy the default. If the default is not remedied with two (2) weeks after receipt of the written notice or such further time as may be reasonably required and requested by the Company using the best efforts on a commercially reasonable basis to remedy the default, the Municipality may undertake such repair work and the Company shall be liable for the reasonable costs thereof.

c) **Urgent Repairs and Notification to Municipality**

If any repairs or maintenance required to be made to the Gas Distribution System are of an urgent nature where the operation or reliability of the Gas Distribution System is materially compromised or potentially materially compromised, the Company shall be entitled to conduct such repairs or maintenance as are commercially reasonable without prior notice to the Municipality, on the understanding and agreement that the Company will provide written or verbal notice to the Municipality as soon as practicable and in any event no later than 72 hours after the repairs are commenced.

d) **Company to Obtain Approvals from Other Utilities**

The Company shall be solely responsible for locating, or causing to be located, all existing utilities or utility mains, pipes, valves and related facilities in, on or adjacent to the Work site. The Company shall notify all other utility operators and ensure that utilities and utility mains, pipes, valves and related facilities are staked prior to commencement of construction. Unless the Municipality has staked the location for the utility property, staking shall not be deemed to be a representation or warranty by the Municipality that the utility or utility property are located as staked. The Municipality shall not be responsible for any damage caused by the Company to any utility or any third party as a result of the Company's Work, unless the Municipality has improperly staked the utility property. Approval must be obtained by the Company from the owner of any third party utility prior to relocation of any facility owned by such third party utility.

e) **Approvals**

Where any approvals are required to be obtained from either party under this Article, such approvals shall not be unreasonably withheld.

The Company shall ensure that all Work is performed in accordance with the requirements of all applicable legislation, rules and regulations. The Company shall immediately notify the Municipality of any lien, claim of lien or other action of which it has or reasonably should have knowledge, and shall cause the same to be removed within 30 days (or such additional time as the Municipality may allow in writing), failing which the Municipality may take such action as it

reasonably deems necessary to remove the same and the entire cost thereof shall be immediately due and payable by the Company to the Municipality.

12) **RESPONSIBILITIES FOR COST OF RELOCATION**

Upon receipt of one (1) years notice from the Municipality, the Company shall, at its own expense, relocate to Municipal Property such part of the Gas Distribution System that is located on Municipal Property as may be reasonably required by the Municipality due to planned Municipal construction.

In order to encourage the orderly development of Municipal facilities and the Gas Distribution System, the Municipality and the Company agree that they will meet regularly to: a) review the long-term facility plans of the Municipality and the Company; and b) determine the time requirements and costs for final design specifications for each relocation. Providing the Municipality is not the developer requesting the relocation for commercial or residential resale to third parties, the Company shall bear the expenses of the required relocation.

Notwithstanding the foregoing, the Company shall not be required to move any part of the Gas Distribution System after receipt of notice from the Municipality in accordance with this Article where:

- a) the Company has illustrated to the satisfaction of the Municipality, acting reasonably, that an appropriate Alternative Course of Action is available;
- b) the Municipality has provided the Company with its written approval of the Alternative Course of Action (which approval may not be unreasonably withheld by the Municipality); and
- c) the Company has provided its written undertaking to carry out the Alternative Course of Action promptly and within a sufficiently short period of time so as to ensure that the Municipality will be left with sufficient time to complete the said planned Municipal construction within the Intended Time Frame (taking into account any delays which the Municipality may encounter as a result of the Company utilizing the Alternative Course of Action).

For the purposes of this Article 12, the term "Alternative Course of Action" shall mean any course of action that will enable the Municipality to complete the said Municipal construction and will result in a net cost savings to the Company (taking into account all additional costs incurred by the Company in carrying out the Alternative Course of Action and any additional costs which the Municipality may incur and which the Company will be required to pay in accordance with this Article 12) and "Intended Time Frame" shall mean the period of time within which the Municipality would have reasonably been able to complete the said Municipal construction if the Company would have relocated the Gas Distribution System in accordance with this Article 12.

If the Municipality agrees to permit the Company to utilize an Alternative Course of Action, the Company shall pay any and all costs incurred in carrying out the Alternative Course of Action and shall pay on demand to the Municipality (on a full indemnity basis) any and all costs incurred by the Municipality:

- (i) in conducting a review of the Alternative Course of Action to determine whether the Alternative Course of Action is acceptable to the Municipality;
- (ii) in modifying any plans the Municipality may have prepared in respect of the said Municipal construction (which are referred to herein as "Modified Plans") or in preparing or developing plans and procedures (which are referred to herein as "Work Around Procedures") to work around the Gas Distribution System or any improvement, thing, or component utilized by the Company in effecting the Alternative Course of Action; and
- (iii) in the course of conducting the said planned Municipal construction where such costs would not have been incurred by the Municipality if the Company had relocated the Gas Distribution System in accordance with this Article 12 (including any additional cost the Municipality may incur in completing the said Municipal Construction in accordance with the Modified Plans or in effecting any Work Around Procedures).

The following example illustrates the intended application of the foregoing provisions:

- Where :
- (A) The Municipality requires the Company to move a gas line so that the Municipality can replace its own sewer lines. The cost of moving the gas line is \$10,000. The cost of carrying out the replacement of the sewer line after moving the gas line is \$40,000;
 - (B) The Company proposes to simply brace the gas line (at a cost of \$2,000) and the Municipality, acting reasonably, approves of this as an Alternative Course of Action;
 - (C) As a result of having to prepare Modified Plans and to prepare and implement Work Around Procedures to work around the braces, the actual cost incurred by the Municipality in replacing the sewer line is \$45,000 (being a net increase in cost of \$5,000);

The Company is required to pay the \$2,000 cost of the bracing together and the additional cost of \$5,000 incurred by the Municipality (resulting in a net savings of \$3,000 to the Company).

In cases of emergency, the Company shall take all measures that are commercially reasonable and necessary to ensure public safety with respect to relocating any part of the Gas Distribution System that may be required in the circumstances.

If the Company fails to complete the relocation of the Gas Distribution System or fails to repair or do anything else required by the Company pursuant to this clause without valid justification and in a timely and expeditious manner to the satisfaction of the Municipality's representative, acting reasonably, the Municipality may, but is not obligated to, complete such relocation or repair and the Company shall pay the reasonable costs of such relocation or repair forthwith to the Municipality.

If the Municipality chooses to complete such relocation or repair the Municipality will ensure that such work is completed using the Company's design specifications and standards, as provided by the Company, including the use of good and safe operating practices.

The Municipality is not responsible, either directly or indirectly, for any damage to the equipment which forms part of the Gas Distribution System which may occur during its installation, maintenance or removal by the Company, nor is the Municipality liable to the Company for any losses, claims, charges, damages and expenses whatsoever suffered by the Company including claims for loss of revenue or loss of profits, on account of the actions of the Municipality, its agents or employees, working in, under, over, along, upon and across its highways and rights-of-ways or other Municipal Property other than direct loss or damage to the Company caused by the negligence or wilful misconduct of the Municipality, its agents or employees.

In the event the relocation or any part thereof requires the approval of a third party, the Municipality will use reasonable efforts to assist the Company in any negotiation with such third party to obtain the necessary approval(s).

In the event the relocation results from the demand or order of an authority having jurisdiction, other than the Municipality, the Municipality shall not be responsible for any of the costs of such relocation.

13) **GAS DISTRIBUTION SYSTEM EXPANSION**

Subject to the Terms and Conditions, and at no cost to the Municipality unless otherwise provided for under the Terms and Conditions, the Company shall, on a timely basis use its best efforts on a commercially reasonable basis to meet the Gas Distribution System expansion requests of the Municipality or a Consumer, and provide the requisite facilities for connections for new Consumers to the Gas Distribution System.

14) **INCREASE IN MUNICIPAL BOUNDARIES**

Where the Municipal Area is increased through annexation or amalgamation as understood under the *Municipal Government Act* (Alberta) by the greater of 640 acres and twenty five (25%) percent of the current area or more, the Municipality shall have the right to:

- (a) terminate this Agreement provided the Municipality gives notice in writing to the Company of its intention to do so; or
- (b) add the increased area to the Municipal Area already served by the Company so that the rights and obligations contained in this Agreement will apply in respect of the whole Municipal Area, including the increased area.

For all other increases to the Municipal Area through annexation or amalgamation as understood under the *Municipal Government Act* (Alberta), the rights and obligations contained in this Agreement will apply in respect of the whole Municipal Area, including the increased area.

15) **JOINT USE OF GAS DISTRIBUTION SYSTEM**

a) **Municipal Use**

The Municipality shall upon notice to the Company have, for any reasonable municipal purpose, the right to make use of the Gas Distribution System (excluding the transportation of gas) and any rights-of-way granted to the Company, provided such use complies with good and safe natural gas operating practices, as determined by the Company acting reasonably, applicable legislation, and does not unreasonably interfere with the Company's use thereof, at no charge to the Municipality. The Municipality is responsible for its own costs and any necessary and reasonable costs incurred by the Company including the costs of any alterations that may be required in using Gas Distribution System.

b) **Third Party Use and Notice**

The Company agrees that should any third party including other utilities desire to jointly use the Gas Distribution System or trenches or any parts of the Gas Distribution System, the Company shall not grant the third party joint use except in accordance with this Article, unless otherwise directed by any governmental authority or court of law having jurisdiction.

The Company agrees that the following procedure shall be used in granting permission to third parties desiring joint use of the Gas Distribution System:

- i) first, the third party shall be directed to approach the Company to initially request conditional approval from the Company to use that part of the Gas Distribution System it seeks to use;
- ii) second, upon receiving written conditional approval from the Company, the third party shall be directed to approach the Municipality to obtain its written approval to jointly use that part of the Gas Distribution System on any

Municipal Property or right-of-way. As a condition of granting its consent, the Municipality may require that such third party enter into an agreement with the Municipality, and such agreement may require that such third party pay compensation to the Municipality;

- iii) third, upon receiving written conditional approval from the Municipality, the third party shall be directed to obtain final written approval from the Company to jointly use that part of the Gas Distribution System. Once a joint use agreement has been entered into between the Company and the third party, it shall not be subsequently amended without the consent of the Municipality (which consent will not be unreasonably withheld).

c) **Cooperation**

The Company and Municipality agree they will use reasonable efforts to cooperate with each other in encouraging the use of joint trenching and in any negotiations with third parties desiring joint use of any part of the Gas Distribution System located on Municipal Property.

d) **Payment**

The compensation paid or to be paid by such third party to the Municipality for the use of the Municipal Property including its rights-of-way, shall be determined between the Municipality and the third party.

17) ASSIGNMENT

In the event that the Company agrees to sell the Gas Distribution System to a third party purchaser, the Company shall comply with Article 10 above. In addition, the Company will request that the third party purchaser confirm in writing that it will agree to all the terms and conditions of this

Agreement between the Company and the Municipality. The Company agrees that it will provide to the Municipality a copy of the third party purchaser's confirmation letter.

The Company agrees to provide the Municipality with reasonable prior written notice of a sale of the Gas Distribution System to a third party purchaser. The parties shall thereafter meet to discuss the technical and financial capabilities of the third party purchaser to perform and satisfy all terms and conditions of the Agreement, and the compensation payable to the Municipality for all costs including administrative and legal costs relating to providing its consent to the Assignment. ("Municipal Compensation")

The Municipality has thirty (30) days from the meeting date with the Company to provide written notice to the Company of its intention to consent or withhold its consent to the assignment of the Agreement to the third party purchaser. The Company agrees that the Municipality may provide notice of its intention to withhold its consent to the assignment of this Agreement to the third party purchaser if the Municipal Compensation is inadequate or if the third party purchaser fails to covenant, in favour of the Municipality, to perform and observe all of the covenants and obligations of the Company to be performed and observed under this Agreement and otherwise solely on the basis of reasonable and material concerns regarding the technical capability or financial wherewithal of the third party purchaser to perform and satisfy all terms and conditions of the Agreement. In this case, such notice to the Company must specify in detail the Municipality's concern. Should the Municipality not reply within the thirty (30) days, it is agreed that the Municipality will be deemed to have consented to the assignment. The Company further agrees that, when it applies to the Board for approval of the sale, it will include in the application any notice received from the Municipality, including the reasons given by the Municipality for withholding its consent. The Municipality shall have the right to make its own submissions to the Board.

Subject to the Company having fulfilled the obligations outlined in the preceding three paragraphs, the Company shall be entitled to assign this Agreement to an arm's length third party purchaser of the Gas Distribution System without the consent of the Municipality, subject to paying the Municipal Compensation for the assignment, and having obtained the Board's approval for the sale of the Gas Distribution System and, the third party purchaser's confirmation in writing that it agrees to all the terms and conditions of this Agreement.

Where the Board approves such sale of the Gas Distribution System to a third party and the third party provides written confirmation to assume all liabilities and obligations of the Company under this Agreement, then upon the assignment of this Agreement and the payment of the Municipal Compensation for its consent to the Assignment subject to Board approval, the Company shall be released from all its liabilities and obligations thereunder.

The Company shall be entitled to assign this Agreement to a subsidiary or affiliate of the Company without the Municipality's consent. Where the Company assigns this Agreement to a subsidiary or affiliate, the Company will remain jointly and severally liable.

Further, it is a condition of any assignment that the subsidiary, affiliate or third party purchaser, as the case may be, shall provide written notice to the Municipality indicating that it will assume all liabilities and obligations of the Company under this Agreement.

Any disputes arising under the operation of this Article shall be submitted to the Board for determination.

The dispute shall be heard by the arbitrator(s) within 45 business days of the written notice for arbitration unless extended by mutual agreement between the parties. The arbitrator(s) shall render a decision within 20 business days of the last day of the arbitration hearing. Save as otherwise expressly provided in this Agreement, the provisions of the Arbitration Act (Alberta) (as amended from time to time) shall apply to any arbitration undertaken under this Agreement subject always to the Board's jurisdiction over any matter submitted to arbitration. Pending resolution of any dispute, the Municipality and the Company shall continue to perform their

respective obligations hereunder. The decision of the majority of the arbitrators shall be final and binding.

The Company shall advise the Board of any dispute submitted to arbitration within ten (10) business days of it being submitted and shall advise the Board of the results of arbitration within ten (10) business days following receipt of the decision of the arbitrator(s).

If either party shall fail to meet its obligations hereunder within the time prescribed, and such failure shall be caused or materially contributed by an event of "force majeure", such failure shall be deemed not to be a breach of the obligations of such party hereunder, but such party shall use its best efforts to put itself in a position to carry out its obligations hereunder. The term "force majeure" shall mean any acts of God, strikes, lock-outs, or other industrial disturbances, acts of the Queen's enemies, sabotage, war, blockades, insurrections, riots, epidemics, lightening, earthquakes, storms, fires, wash-outs, nuclear and radiation activity or fall-out, restraints of rulers and people, orders of governmental authorities or courts of law having jurisdiction, the inability to obtain any necessary approval from a governmental authority having jurisdiction (excluding municipal governments), civil disturbances, explosions, mechanical failure, and any other causes similar in nature not specifically enumerated or otherwise specified herein that are not within the control of such party, and all of which by the exercise of due diligence of such party could not have been prevented.
